Danville, Ill., Jan. 26.—The charge by Earl Chambers, a chauffeur, that he drove an automobile in which Judge Kimbrough, father of the vote buying scandal, and Mayor Platt with money for distribution among the voters, caused Chambers' presence before the Grand Jury probing the Ver-

QUIET DAY FOR THE LEGISLATURE AFTER WEDNESDAY SESSION

Little of Much Importance Accomplished at Madison This Afternoon

Madison, Jan. 26.—The Wisconsin legislature today saw a quiet day's procedure as a reaction on yesterday's important session. Among the most important measures was the adoption of a resolution introduced by Senator Dilling providing for the printing of 2,000 copies of the senatorial and assembly reports on the Stephenson investigation. A resolution by Senator Menley was introduced and adopted providing for the senate committee on education to submit a bill providing for the purchase of space in news-

Young Russian Physician To Be Tried This Month For Murder Of Chief—Crime Is Strange One.

St. Petersburg, Jan. 26.—A murder case which has excited intense interest throughout Russia will come before the Criminal Court at Charkoff towards the end of this month, when a young physician, Dr. Bokitto, aged 28, will be charged with having assassinated the chief of the Charkoff bacteriological institute, Dr. Ostrianin, in September 1908. The indictment filed by the Russian Public Prosecutor gives the following account of the strange crime:—Dr. Bokitto, who was then twenty-six years of age, and already married,

million County vote traffic today. The first witness of the day however, was ex-state senator Ashton, leader of the "dry" forces at the last election when Mayor Platt was elected. He is said to have been in possession of vast fund of valuable information. Today subpoenas for President Enck and Cashier Cass and all the other directors of the First National Bank, were issued. The investigation is the center of discussion throughout the entire middle west. The jury foreman, Isaac Woodard, is a man of strong conviction, dominant will, determination and honesty, and says that if bribery is found to have existed in the recent election every man guilty of same will pay the penalty. Judge Kimbrough, who charged the jury to give special attention to the alleged Danville bribery, is a man of the same caliber and just as determined as Woodard to have the matter brought fully to public attention. Next to the bribery in Ohio, this scandal in Speaker Cannon's home town is the most wholesale corruption which has been brought to the attention of the public in many years. Judge Kimbrough before the grand jury said in an interview that the ward workers were always paid election day and that is why the money was taken to the precincts. He said that under the law outside of Danville the vote buying was not a crime, in Danville it is not a crime after 18 months have passed and therefore the buyers are now immune.

papers for the use of the university extension department, the cost not to exceed \$100,000 annually. Bills were introduced by Senator Huston providing for the direct election of United States senators and pledging candidates for the legislature to vote for the people's choice. Senator Gaylord, repudiating the law giving the state railway commission supervision of public utilities and restoring that power to the municipality in which the utility is located. The bill will empower cities to issue franchises on certain conditions, one of which provides that for such property must not be more than sufficient to pay six per cent on the investment. In the assembly bills were introduced by Kleinschmidt of Milwaukee, providing for prohibiting third degree methods by police; by Brookhausen, permitting peaceable picketing in strikes and permitting workmen to persuade strike-breakers to abandon work. The senate today confirmed the appointment by Gov. McGovern of Harold E. Erickson as a member of the state railway commission for a term of six years. The senate committee on state affairs elected Senator Henry Kraemer of Plymouth as chairman and Senator Lyons of Fond du Lac as secretary.

COMMUNICATION LOST WITH U. S. GUN BOAT

Gun Boat Wheeling, Bound For Canal Zone, Has Not Been Heard From—Explosion Feared.

New York, Jan. 26.—The gun boat Wheeling, which sailed Saturday en route from New York to Guantanamo, has been lost to wireless communication for twenty-four hours and there is a persistent rumor an explosion has occurred.

Wireless along the entire sea board is today combating the atmospheric rain. The Wheeling is loaded with ammunition, her ultimate destination being Biheloff, Nicaragua. She was last reported two hundred miles off Charleston, S. C. Her complement is one hundred and forty men.

Is Discredited. Washington, Jan. 26.—Navy officials strongly discredited the report that the gun boat Wheeling is lost following an explosion.

WORD TODAY SAYS REBELS APPEAR TO BE IN ASCENDENCY

President Davilla's Government Thought to Go on Verge of Falling.

Truxillo, Honduras, Jan. 26.—The fall of President Davilla's government is believed to be close at hand today following the capture of Col. Inez night by revolutionists. All federal troops of Col. Inez swore allegiance to the rebel cause today and an attack on Puerto Cortes is planned. Defeat Reported. Tegucigalpa, Honduras, Jan. 26.—The defeat of the revolutionary army near San Antonio and the death of Col. Valesque, the insurgent leader, is reported here today.

INFRINGEMENT OF LAWS SANCTIONED

But The United States Is The One Which Breaks Laws And For Special Beneficiary Purpose.

Washington, D. C., Jan. 26.—An infringement of the customs laws of the United States was sanctioned by the Comptroller of the Treasury in order to facilitate the work of safeguarding the Imperial Valley of California from flood damage consequent to the annual inundations of the Colorado River.

The Comptroller, in a special opinion, permits Special Disbursing Agent J. C. Hering, of Yuma, California, to pay the customs duties on materials shipped into Mexico by check, and through a third party, and also authorizes the use of American fifty cent pieces as Mexican dollars in this payment. Much of the work authorized in the million dollar appropriation by Congress last year for guarding the Imperial Valley has to be done in Mexico, where the troublesome Colorado River runs. When the engineers began work they discovered that while it was easy to confine the Colorado River on the American side of the boundary line, it was imperative that some work be done on Mexican soil.

An international agreement was finally negotiated to permit of this. Then the obstacle of Mexican duties developed. In order to remove this the Comptroller decided to sanction a violation of the laws. Statutes in force now prohibit all of the things which the Comptroller in his opinion permits Hering to do. The Special Disbursing Agent before the granting of this permission found it impossible to supervise all exportations of materials and machinery to Mexico because the customs house was ten miles distant from his office, and also found it impracticable to make payments of Mexican customs duties in the coin of that nation.

CANAL EMPLOYEES ENJOY LUXURIES

Panama Railroad Supplies Men Working For Uncle Sam With All Necessities and Delicacies.

Washington, D. C., Jan. 26.—That Uncle Sam means to be as honest as well as efficient storekeeper is shown in the annual report of the Panama Railroad just published in the statement that new automatic machines have been established for the sale of supplies to Canal employees.

The Panama Railroad has taken over the task of supplying the myriad wants of the employees along the Panama Canal. As the stock of the railroad is owned by the United States, and the commissary department is in charge of an army officer, it is really the government which is feeding and clothing the thousands of canal workers. During the last year it was thought that through carelessness of the store clerks, exact weights were not always given the customers. Consequently, the automatic weighing machines were installed as a guarantee of correctness.

The value of goods sold to canal employees during the fiscal year 1909-1910 was \$3,912,519.14. As Uncle Sam runs no credit account on the Canal, he is able to itemize this cash received. The sales included everything conceivable in the way of food and supplies for the American family both necessities and luxuries.

Prices of foodstuffs in the Canal Zone were never so low as during the last year, and in almost every instance and especially in foodstuffs, they were lower than the prices for the same goods in the states. This result was accomplished in spite of the steadily advancing market in the states—work was the only exception. This must prove so high that even the commissary department had to lower its prices. Besides, bringing to the Canal Zone in its six steamships, fresh California fruits, game in season, and fresh meats in cold storage, the Panama Railroad supplied thousands of kitchens from its establishments. More than 4,000,000 loaves of bread were produced in the bakery, to say nothing of 504,003 rolls, and 120,007 pounds of cake. More than 26,000 pies were produced from June to January, but, owing to climatic conditions, the pie making was finally abandoned.

Ice cream to the value of \$62,379.93 was made during the year. The report says:— "There is a great demand for this product throughout the year. We use only fresh cream and milk shipped from the United States. Crushed fruits and the highest class of flavoring are used, and, judging from the standpoint of sales, the product must be highly satisfactory."

NO DECISION HAS BEEN REACHED YET BY SCHENK JURY

Have Been Out for Seventeen Hours Without Any Decision Being Reached.

Wheeling, Jan. 26.—At noon today, nineteen hours after they retired and nearly seven hours of actual deliberation, the jurors in the Schenk poisoning case were apparently no nearer a verdict. Private opinions place the jury status at eight for acquittal and four for conviction. The jury in the Schenk case was brought into court at 9:45 today following a note from three jurors asking for dictation from the testimony of Mrs. Coleman, Mrs. Schenk's landlady. The court ordered the testimony transcribed. Mrs. Schenk appeared in court smiling.

MADE OBJECTIONS TO HIGHWAY BILL

Senator Donald of Mt. Horeb Gave Reasons at Hearing This Afternoon for Opposing Highway Bill.

Madison, Wis., Jan. 26.—At this afternoon's hearing on the Burke highway commission bill, Senator John H. Donald of Mt. Horeb explained his reasons for not standing with the rest of the joint special committee in favor of the Burke measure. Senator Donald objected to the kind of commission provided. Instead of three commissioners, one an engineer at \$3,000 a year, and two others without special qualification at \$2,400, he suggested five, the dean of the University of Wisconsin college of engineering and the state geologist, and three others appointed by the governor, to be paid only their actual expenses. These commissioners would be empowered to employ a good highway engineer. Senator Donald's state aid plan provides for payment of aid to counties in the same proportion as the taxes they pay bear to the total received from all counties.

MAY INTERFERE IN TURKISH AFFAIRS

Action of Young Turks With Regard To Foreign Schools Likely to Cause Trouble With Powers.

Constantinople, Jan. 26.—There is grave trouble in sight between Turkey and a number of the world powers, the United States among them, over the question of foreign schools in the Sultan's country.

Ever since the Young Turks obtained control of the Constantinople government, there has been a persistent attempt on their part to get these institutions into their hands. Favors which the Hamidian regime extended to them have for instance, been withdrawn. Diplomats are not recognized. Requirements for military service are oppressively enforced against Turkish teachers and pupils. Crushing taxation is threatened. Several schools where pupils are wholly native have already, in fact, been forced to submit to government supervision amounting to control and now a vicious campaign is being waged against those engaged in part or entirely in the education of foreigners. French Minister Demarand, indeed, considers the situation so serious that he recently asked his government for definite instructions. The foreign office at Paris has now replied that French schools existing in Turkey at present by virtue of the agreement of 1903 must be protected against interference until a new agreement is reached.

NINETY-FIVE PEOPLE FROM BURNING LINER WERE LANDED TODAY

Passenger of the Steamship Liner Queen, Were Landed By Launches Which Met Burning Vessel.

San Francisco, Jan. 25.—The ninety-five passengers of the Pacific steamship liner Queen were landed today in launches which met the burning vessel in the channel.

The passengers were in a state of panic. The Queen was rushed into shallow water, where she may be sunk if the fire gains further headway.

The boat left here at 3 p. m. yesterday for Puget sound with 125 passengers. The fire broke out in the forehold and when discovered had gained considerable headway, and at last reports was rapidly getting beyond control.

A wireless call for help was received at the United Wireless station here about 5 o'clock and the steamer President, of the same company, was immediately sent to the scene.

A message received from Capt. Shea of the Queen at 7:25 p. m. urged all boats possible in sending boats to his rescue, as a gale was blowing and the seas were running high. Capt. Shea said the passengers were in no immediate danger.

Capt. Hubbard superintendent of the company, went to the scene in a tug and a power lifeboat was sent from the Port Point station. The steamer President also started.

From the moment when the fire was discovered, a steady stream of these appeals for help poured the night. "S. O. S." (Save our ship) was uttered again and again within a radius of 100 miles. It was heard by steamers and stations along the shore, and as a result agents of rescue were set in motion almost as soon as the need was made apparent.

The steamer Queen has had more adventurous accidents and experience at sea than any liner of the fleet of the Pacific Coast company. The record of her trials and hardships extends over twenty years.

It was a little over two years ago that an explosion took place in the fire room and four or five firemen were badly scalded.

WOULD MAKE RAILROADS MORE LIABLE

Bill to Make Railroads Shoulder Burden of Defense in Cases of Damages by Engine Sparks.

Madison, Wis., Jan. 26.—Assemblyman R. J. Nye of Superior has come forward with a bill intended to minimize the danger of forest fires in northern Wisconsin caused by sparks from locomotives. The present law requires that engine stacks be covered with wire netting, that grass and weeds along rights of way be cut by railroads and that when the forestry board shall deem it necessary, fire patrols shall be provided by companies. But Mr. Nye would go farther. He would have "any town officer empowered to forestry officers, empowered to notify railroad companies of derelictions and report violations to district attorneys. This bill further provides that railway companies violating the present act shall be liable to property owners aggrieved by fire damage of this sort, providing the owners are not guilty of negligence. At the trial of an action against a railway company for such damages the party injured shall not be required to show defects in cars or engines or negligence of railroad employee; but the mere fact of escaping sparks being the cause of fires shall be prima facie evidence of such defects or negligence. This places the defense burden squarely upon the railroad company. It is also provided that if a company fail, refuse or neglect to pay damages incurred by a court within sixty days, it shall be liable to pay the injured party twice the amount of damages originally allowed. It is likely that before Mr. Nye's bill comes from the committee it will be less drastic, but the principle is quite certain to be enacted into law.

BIG FIRE LOSS AT TROY, N. Y., TODAY

Five Hundred Thousand Dollars Is the Estimated Loss in Business District.

Troy, N. Y., Jan. 26.—A fire here today wiped out the Union store and three other mercantile firms. The loss is five hundred thousand dollars.

Six firemen were buried by falling walls. All were rescued but Lieutenant Butler, who is thought to have perished. Crows and Hawks: At the last session of the county board they decided to discontinue the bounty on crows and hawks. This announcement at this time may save some people an unnecessary trip to the office of the county clerk in the spring.

ICE HARVEST WAS ENDED WEDNESDAY

CITY ICE COMPANY HAS FINISHED
ITS WINTER'S WORK.

EIGHTEEN THOUSAND TONS

Both Upper and Lower Ice Houses
Filled To The Brim With Finest
Ice In Years.

At six o'clock last evening the City
Ice Company completed their work of
filling the two ice houses of the com-
pany, having stored eighteen thousand
tons in all. The majority of this ice
was cut well out into the channel of
the river, much further than has heret-
ofore been possible and is of excellent
quality.

Thirteen thousand tons is stored in
the lower house which is the larger
of the two and five thousand in the up-
per house.

MARKING THE ICE ON RIVER.

per one. It took five days with one
hundred and thirty-five men working
the full day to finish the work on the
lower house, while but four were need-
ed for the fifty men employed at the
upper house. The work has been rushed
owing to the danger of a thaw
which might open the river again.

Sam Tall, who has been acting as
manager of the company since the
death of his brother Henry Tall,
some weeks ago stated last evening

SAWING OUT THE BLOCKS.

that the ice was the finest that had
been harvested in several years. "We
were able to cut well out into the
current," said Mr. Tall, "and conse-
quently have secured a clear cut this
season. Both houses are chock full
with the finest kind of ice and unless
we have an unusual summer this year
we will have enough to meet all de-
mands."

"Owing to the fact that the ice sea-
son in 1910 was of unusual length we

were forced to buy three car loads
of ice to meet the demand and when
the cutting began this winter we had
just about enough left to have handled
our regular town trade that leads the
year round, left in the lower house.
"We had some difficulty with our
plans to start with which delayed us
a little but that was soon remedied,
and the work went on. We only had
two men injured this winter, which is
remarkable, considering the number
we had employed and the danger that
there is connected with the work.
Neither were seriously hurt however.
"Today we started putting up six
hundred tons for the Shurtliff Com-
pany, and that will complete our win-
ter's work on the ice. We were able

CANAL AND LOWER ICE HOUSE

to cut within twenty rods of the upper
ice house this year well out into the
river, which made it much easier to
fill the upper house than formerly.
The wet weather has not delayed us
at all and has done its share to clean
the ice and make it perfect for pack-
ing."

The company will continue to cut
ice from the river for their daily de-
liveries throughout the city until some-
time in March or April. This is used
in the big ice boxes down town and is
of the finest quality. The total amount
of ice put up this year is greater than
in any previous year and averages
about twelve inches of clear ice, in
thickness. In the upper house some
eighteen inch ice was stored.

A CLINTON MAN'S SUDDEN DEATH

Found in Dying Condition in Rear of
Commercial Hotel—Old Resident
Dead in Elgin.

CLINTON, Jan. 25.—Oleott Chamber-
lain, aged fifty-five, a resident of Clin-
ton for nearly all his life, was found
in an unconscious condition in the
rear of the Commercial hotel late
Wednesday afternoon, lying on the
ground. He was taken into the hotel
and Dr. W. O. Thomas called, but the
man died before the physician arrived.
An internal hemorrhage or heart fail-
ure is believed to have been the cause
of his death. The body was removed
to the Tubb's undertaking rooms and
prepared for burial, the date for which
has not yet been set.

Franklyn Ames.
Word was received from Elgin this
morning announcing the death of
Franklyn Ames in that city. Mr. Ames
was a justice of the peace in Clinton
for thirty years, has held the office of
mayor of the village and was unan-
imously elected for postmaster sev-
eral times. He has been prominent in
the history of the village and removed
to Elgin some three years ago. He
was a prominent member of the Ma-
sonic order and of the G. A. R. His
funeral will be held at the Masonic
Temple in Elgin under the auspices
of the Masons. During his long res-
idence here he made many warm
friends who will be sorry to learn of
his death. He was a honest upright
citizen and highly respected.

Kelly was consecrated here today as
bishop of Cebra and auxiliary bishop
of Detroit. The ceremony took place
in St. Thomas church and was the
first of its kind to be performed in
Michigan in more than a quarter of
a century. Several eminent prelates
of the church participated in the cere-
monies, together with a large number
of the clergy.

AFTER THE "GET RICH QUICK"
PROMOTERS.
STANLEY FINCH.

Washington—When the promoters
of "get rich quick" schemes ran into
Stanley Finch, chief of the crime de-
tecting force of the department of Jus-
tice, they discovered they were up
against the real thing. For many
months Finch has been rounding up
various "get rich quick" firms through-
out the country. The entire detective
force of the government is being con-
centrated and will be under his direc-
tion.

Perhaps no line of government
secret service work is harder to ferret
out than the modern promotion
schemes which yearly gobble up mil-
lions of dollars from the people at
large through fraudulent use of the
mail.

Mr. Finch takes special pride in his
honest efforts to promote better citi-
zenship through his work in putting
such organizations out of business.

CITY HORSE INJURED IN AN ACCIDENT LAST NIGHT

Gray Horse Used for Work on Streets Caught Foot in Rail and Hoof Was Badly Torn.

Catching its shoe in a guard rail of the tracks of the Rockford & Interurban company last night, the gray horse owned by the city and used for work on the streets, was thrown to the ground and the hoof of one of the forefeet was badly torn. The force of the shoe caught in the flange of the rail and it could not extricate it. The animal fell quite heavily and it is fortunate that the leg was not broken. The driver, James Milford, prevented further injuries by jumping quickly from the wagon and sitting on the horse's head so it could not move. A blacksmith removed the shoe and the horse remained its feet. The foot has been bandaged and the horse is out of service until the wound is healed.

"NO PLACE LIKE HOME" FOR HANEY

Frank Haney Arrested for Drunkenness on Arrival at Home Where His Wife is Critically Ill.

Family troubles resulted in the arrest of Frank Haney last night at his home on Ashland avenue and his subsequent appearance in municipal court this morning on charges of drunkenness. Haney's wife is critically ill and her daughter, Mrs. Grace Haney, who is caring for her, desired that nothing be done to excite the mother, as it might cause a turn for the worse and result fatally for the sick woman.

When the daughter learned that Haney was down town and drinking she telephoned the police to look for him and prevent him from returning home. Haney, however, had started home, and shortly after a telephone message was received from Mrs. Haney announcing his arrival there. She said he had been drinking heavily and requested that he be taken in charge. It is said that no love is wasted between father and daughter, and when Haney arrived home he is alleged to have attempted to clear the house. He was taken to the lock-up and arraigned before Judge McField this morning. He pleaded not guilty, saying he had had but two drinks, but in order to investigate the cause to learn from the physician the cause of his wife's illness, Judge McField sentenced the man to five days in jail, sentence to be suspended if the judge deemed it wise.

Enroute to town, where he was to join his wife, Burn Coulter, who has been living on a farm about seven miles west of Edgerton, fell in with some friends and took too many social glasses. Coulter was the "Man Who Owns Broadway" when the police took charge of him, offering to fight anybody and throwing his money right and left in the street. He pleaded guilty to the drunkenness.

MOVES TO LINCOLN AT AN EARLY DATE

John D. Waldo, A Former Janesville Resident—To Take Charge Of Big Wholesale Grocery.

Mr. and Mrs. John D. Waldo, both former Janesville residents, Mrs. Waldo being remembered as Miss Mabel Jackson, will shortly move to Lincoln, Nebraska, from Grand Island, in the same state, Mr. Waldo having been offered the management of the Harveys Morehead Company of that city. In speaking of the proposed change, a Grand Island newspaper has the following to say:

For the past ten years connected with the Nebraska Mercantile Co., of this city, wholesale grocers, and for the past six years manager of that concern, has been called to accept the management of the Harveys Morehead Co., of Lincoln, and will move to that city as soon as the Nebraska Mercantile Co. secures a man in his place.

Mr. Waldo has been a very efficient man for the local company. He has guided it in its affairs during the recent years of great development and has, under his management, seen its business treble. There is, too, the best of feeling between the company and himself mutually, but the offer of the Lincoln house is such a one that Mr. Waldo does not feel justified in declining. In business circles Mr. Waldo's departure will be very sincerely regretted and both Mr. and Mrs. Waldo will be missed from the social circles of the city, in which they have held a high place.

SEETHE MAXWELLCARS AT THE AUTO SHOW.

The Maxwell Construction for 1911 is a Triumph in Mechanical Skill and Perfection.

In these cars no element has been emphasized at the expense of another. The cars are well balanced, built for long life and hard work. In constructing this line the Maxwell company followed a policy of producing cars of composite strength, rather than cars of single virtues.

Look for the Maxwell exhibit at the Chicago show and you'll find it where the crowds are largest.

BERTH RATES ARE CUT**PULLMAN COMPANY FORESTALLS GOVERNMENT ACTION.****Sleeping Car Tariffs Throughout Country Are Reduced About 20 Per Cent.**

Chicago, Jan. 25.—Slashing reductions to sleeping car tariffs, the most radical in the history of transportation, effective in every state and territory in the United States where Pullman cars are operated, were announced by the Pullman Company to go into effect February 1.

Taking their cue from the recent action of the Interstate Commerce commission and several state railroad commissions in insisting on reduced rates in both lower and upper berths, especially the latter, the big sleeping car company not only forestalled any further governmental action, but actually went the federal commission one better by adopting in several instances a lower schedule than demanded.

The tariffs as filed provide that where the lower berth rate is \$1.50 the upper berth rate will be \$1.25, and where the lower berth rate is more than \$1.50 the upper berth rate will be 20 per cent. less. The minimum rate for lower berths will be \$1.50 and that of upper berths \$1.25.

Another entirely new feature of sleeping car rates is the putting in of an intermediate lower berth rate between the even dollar and half dollar. Heretofore the rate of \$1.50 would carry for a certain time and distance with the next higher rate advanced to an even \$2, the next \$2.50 and so on. In the new tariff rates of \$1.75, \$2.25, \$2.75 and so on upward have been put in wherever it was necessary to bring about an equalization of the lower berth rates.

MRS. JANE DOWIE PENNILESS

Widow of "Prophet" of Zion City Ill and is Cared For by Her Neighbors.

Whitehall, Mich., Jan. 25.—Mrs. Jane Dowie, widow of the late "Prophet" John Alexander Dowie, founder of Zion City, has been confined to her bed the last two weeks with grippe, during which time she has only such attention as neighbors could give.

Mrs. Dowie's present surroundings are said to be pitiful. She is penniless.

Hoppe Not to Retire.

New York, Jan. 25.—Willie Hoppe, billiard champion of the world, says that the report that he had announced his retirement from the game because of the objections of his wife and father-in-law is untrue, and that he has no intention of retiring.

USES DAUGHTER AS SHIELD**Man Seeks to Kidnap Own Child—Fires on Wife and Neighbors—Is Himself Shot.**

Marion, Ill., Jan. 25.—Confronted by the possibility of failing in his efforts to kidnap his own child, a girl ten years old, Walter Harris of DeWain, holding the girl in front of him and making a shield of her body, opened fire on his wife and a crowd of neighbors whom she had called to assist her in taking the child away from him.

The girl broke away from her father and left him unaided. He was shot several times with pistols, and is dying at DeWain.

The shooting was at the home of the man's wife, from whom he had been separated for a few months.

EXPLOSION ON BOAT RUMORED**Unconfirmed Report Says Wireless Message Told of Blast on Gunboat Wheeling.**

New York, Jan. 25.—Rumors reached the naval station at Newport that a wireless dispatch had been received somewhere telling of an explosion on the gunboat Wheeling, which sailed from New York for Guantanamo on Tuesday.

At the Brooklyn navy yard it was said nothing had been heard. Washington also has no such news.

FOIL PLOT TO KILL KING**Twenty Men and a Woman Arrested by Scotland Yard to Thwart Attempt to Slay Ruler.**

London, Jan. 25.—Twenty men and one woman, said to be anarchists, were arrested by Scotland Yard to thwart an alleged plot to assassinate King George and Queen Mary. The double assassination was planned for the opening of Parliament, February 6, according to Scotland Yard.

Higher Pay for Judges Beaten.

Washington, Jan. 25.—The Mann amendment to the Moon bill for the codification of the laws governing the judiciary, which sought to increase the salaries of circuit judges to \$8,500 a year was defeated on a yeas and nays vote 129 to 156.

Tampa, Fla., Jan. 25.—The strike of the cigarmakers, which has lasted seven months, was called off by the joint advisory board.

Curse of Unrest.

He who is in perfect peace suspects no man; but he who is discontented and disturbed is tossed about with various suspicions; he is neither at rest himself nor does he suffer others to rest. He often says that which he should not say and omits that which it would be better for him to do. He considers what others are bound to do and neglects that to which he himself is bound.—Thomas a Kempis.

PLAN PHILLIPS' BURIAL**AUTHOR'S FRIENDS ARRANGE FOR QUIET FUNERAL.****Slayer's Body Is Taken to His Former House at Washington and Interred.**

New York, Jan. 25.—The body of David Graham Phillips, the slain novelist, probably will be laid to rest in Greenwood cemetery, Brooklyn.

Beyond this no announcement was forthcoming from the little group of the dead writer's friends and relatives intrusted with the mission of arranging his funeral.

Mrs. Caroline Prevart, who stood at her brother's bedside as he breathed his last, and Senator Albert J. Beveridge, Phillips' close friend, visited the cemetery with the intention of selecting the spot for the grave. The body will be transferred to the National Arts club, the writer's former home.

George Horace Lorimer, editor of the Saturday Evening Post, and Samuel G. Blythe, associates of Phillips during his lifetime, are assisting Senator Beveridge in arranging for the funeral.

The body of Fitzhugh Coyle, Goldsborough, the post-muscleman who slew Phillips, which was borne to the railway station in Jersey City as the novelist was breathing his last, was buried in Washington.

TWO WOMEN DIE IN BLAST**Tank of Ammonia Blows Up in Philadelphia Laundry, Causing Wild Panic Among Employees.**

Philadelphia, Pa., Jan. 25.—In an explosion of a large tank containing ammonia in the Locust laundry at Ninth and Locust streets here two women were killed, 15 to 20 girls were slightly injured and 250 other employees, mostly young women, were thrown into a wild panic.

The force of the explosion shook the building violently and shattered all the window glass. In the crush to get out nearly a score were cut and bruised. Ammonia fumes, which permeated the building, added to the panic. Women carried out of the building nearly a dozen young women they found lying on floors and stairways, who had fainted in the excitement.

ISSUES NEW POSTAL CARD**Postmaster Hitchcock's Department Puts Out One for Library Purposes.**

Washington, Jan. 25.—A new domestic postal card is being issued by the postoffice department, designed primarily for index or library purposes, being smaller than previous issues. The size is three by five inches. The card is white with red printing. The stamp is a profile head of Abraham Lincoln looking to the left.

The new card will be issued in sheets of 18 when desired in that form for printing purposes. The sheets are two cards wide by nine cards long. To be valid for postage the cards must be cut to regulation size.

Bird Killed on Golf Links.

In the window of a well known taxidermist in Edinburgh, Scotland, is to be seen the figure of a starling perched on a golf ball, and enclosed in a neat glass case. The poor bird is mounted on the sphere that caused its death. The incident happened on the golf course at Eile. The bird was struck while in flight, and instantly killed.

Combines Telephone and Clock.
The average office equipment of the present day calls for a number of wires entering the place, public and private telephones, messenger calls, electric clock and similar conveniences. In order to cut down the number of these a new electrical invention combines the telephone and the clock, the same wires being utilized for each of these functions. The clock and telephone are mounted together on the same base, and after being placed on the wall the clock requires no further attention, such as winding and setting.

The Evening Chit-Chat

By RUTH CAMERON.

AND SO she's going to marry THAT man," said the little stenographer lady, "that little effeminate, soft-voiced daisy—after all the chances she's had."

We had just read the announcement of the neighborhood belle's engagement in the evening paper. "I don't wonder a bit," said the lady-who-always-knows-somewhat. "I think he's just the kind of a man women always fall in love with." "What is the kind of a man women always fall in love with?" asked the writer. "I often make all the ladies in my story go daffy over one man or another, but story ladies have to do what I tell them, and I'll be hanged if I could pick out the man that real live ladies will fall in love with. The only thing I can be sure of is that they won't like the man you'd think they would. There's Oglethorpe, for instance, one of the best men the Lord ever made and women run from him as if he had the pest."

"Why do you always pick out some perfect stick to call the best man the Lord ever made?" inquired Molly. "I'd as soon marry a hitching post as Mr. Oglethorpe."

"Why?" demanded the writer. "Oh, because," explained Molly succinctly. "Well, what kind of a man do women like best?" pursued the writer. "You ladies must know. Tell me."

"A man with good, broad shoulders," said Molly. "The man who always gives up his seat in a street car when women are standing," said the lady-who-always-knows-somewhat.

"The man who never talks about other women," I contributed. "The man who keeps his nails well manicured, and says 'Good morning' when he comes in to the office, and takes off his hat in an elevator," suggested Molly.

"The man who is good to his mother and takes his sisters around sometimes," added the lady-who-always-knows-somewhat. "The man who doesn't treat you half way decently," put in the writer. "A woman and a dog and a hickory tree—the more you beat them the better they be," you know."

"Why, I wonder, does it improve a hickory tree?" mused Molly. "If that isn't just like a woman," growled the writer. "But why?" persisted Molly.

"Never mind," said the writer with dignity. "You are distracting us from the main issue."

"Off that isn't just like a man," mumbled Molly. "Children," said the lady-who-always-knows-somewhat, "cease your quarreling and listen to my nice plan. We'll ask Ruth to ask the great public."

"Lovely," cried Molly. "So will the great public please consider itself asked: What sort of a man do women like best?"

If you'll kindly contribute your ideas on this subject we'll have a symposium some day. Only remember there are a lot of you and make them short—not more than a hundred words.

Your individual observation must have taught you each something on the subject. Won't you share it?

Pointers for Household Use.

When water pitchers or bottles are covered with a crust of lime fill with sour milk and leave 24 hours, then the acid in the milk will have absorbed the lime. The vessel will sparkle like new.

Never throw away old cuffs from the men's shirts, as they make excellent holders to use around the stove.

Damp shoes are usually hard to polish. Add a drop or two of melted paraffin to the blacking, and they will polish up at once.

Save the drain pipes by wiping all greasy dishes with soft paper, then burn the paper. A roll or bunch of tissue paper should always be kept in easy reach in the kitchen; it is inexpensive and will save much work.

To remove iron rust saturate the spot with lemon juice, sprinkle well with salt and put in the sunshade. It will flush the work.

Many housekeepers have fitted covers for their mattresses, made out of unbleached muslin. They may be removed to launder and will last for years, keeping the mattress as fresh as new.

Tartar emetic will rid the house of ants. A dust's worth sprinkled about where the ants enter will effectually dispose of them. Care should be used that this white powder does not touch any food, as it is a deadly poison.

Use a large cork for scouring knives with scouring brick.

An ordinary mason jar top or a baking powder can top makes a good kettle scraper.

Candle grease may be removed by laying a blotting paper over the spot and applying a hot iron. The blotter absorbs the grease.

An oil spot on wall paper may be removed in the same manner.

When using plaster of paris, wet it with vinegar instead of water and it will not harden so rapidly.

A DUTY TO HAVE BOOKS

It was Henry Ward Beecher, who said, "A little library, growing larger every year, is an honorable part of a man's history. It is a man's duty to have books. A library is not a luxury, but one of the necessities of life."

A little library, growing each year through the addition of such books as a man may find necessary to his development makes a pleasure in life with which other amusements sink into insignificance even were one only to consider books from the amusement viewpoint.

But a little library, growing each year as one's tastes develop and the world of literature and art broadens means a bigger and more useful man. It means a man who comprehends the problems of life more thoroughly than he did the year before and it means that his vision in all directions is wider and surer.

Some one has said, "Books are the spiritual presence of the best of our race," and that is true, in no other way can one come into communion with the men and women who have lived and wrought in all ages. Good books preserve the best thoughts of mankind and womanhood, and must therefore, exert a potent influence upon all lovers of life, just as the living presence of dear friends exerts an influence upon us.

But this is only accomplished when men and women who collect books read them with patience and love, the patience that seeks the motive and the love that makes assimilation pleasant and a project of affection.

One who collects books merely to fill the library shelves will never know the influence or rare enjoyment of communion with the chosen spirits of the world.

It is because sitting in our own homes far from the harrowing influences of a care-weighted world, we

can hold intimate association with the great minds of the past, it is because sitting beside our own hearth we can enjoy the quips and philosophy of Shakespeare, or that of Dickens or that of Thackeray, or the poetical fancies of the Brownings, of Shelley, of Wordsworth or the other poets, or walk in ancient Greece or Rome with the sages and philosophers of those times, that the habit of reading becomes the divine pleasure of life, and the accumulation of a library the inspiration of the purposeful man or woman.

Some one a short time ago asked Virginia Gilderleeve, the woman who at the age of thirty-three has become dean of Harvard College, if she deemed a college education absolutely necessary to success in life and she replied that she did not, that it is quite possible for a man or woman to become well educated through reading and travel.

And there is the fine point of inspiration for persons who have been denied a college education. Read, but read intelligently. Travel, but travel intelligently. Assimilate your books and when you travel, travel with your eyes so wide open that they drink in the meaning of all they see.

It is folly for one to keep himself shut in his library and seek to know life only as reflected from the printed page. He who wishes to know life as it is, reads and works in a world of men and makes his reading apply to men, and men illuminate his reading.

AT THE PLAY HOUSES

Beginning Monday, Jan. 30, the Frank E. Long company will open at the Myers theatre for five nights and matinee Wednesday. To give local theatre-goers some idea of what they may expect on the opening night, the following extract from the Waterloo Daily Times-Tribune will be of interest.

"Last night before the biggest and most enthusiastic audience in the history of the Waterloo theatre, and in fact the largest house in the city, the Frank E. Long Stock company opened their week's engagement at 'The Waterloo.' Long before time for the curtain to rise upon the first act every available seat had been sold.

and the S. R. O. sign was hung out. Many were turned from the doors while the more fortunate were gathering for the evening's entertainment. Last night's offering, "Sweet Clover," was a splendid one and marks a new era in popular priced shows. The cast, the scenery and the play was what one would expect from a dollar entertainment, and proved a most wonderful offering at 10, 20 and 30 cents. Miss Nana Sullivan, the star of this company, is one of the best and most finished actresses seen upon the local stage. She has such natural force to her work and such wonderful fire to her dramatic scenes that one forgets she is only acting."

"Sweet Clover" is an excellent four-act drama by Pauline Phelps and Marion Short. It will be presented here Monday night.

The Quickest, Simplest Cough Cure

Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes a pint of cough syrup—enough to last a family a four-time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, sore lungs, asthma, throat troubles, etc.

Mix one pint of granulated sugar with 1 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (50 cents' worth) in a pint bottle and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in quinine and all the other natural healing elements. Other preparations will not work in this formula.

The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Place Co., Ft. Wayne, Ind.

HONOR PAID TO SCOTTISH BARD

IN ENTERTAINMENT UNDER CAL-
EDONIAN AUSPICES AT CON-
GREGATIONAL CHURCH
LAST EVENING.

LECTURES BY DR. BEATON

On Genius of Burns and Interpreta-
tions of His Poems Enjoyed by
Large Audience—Songs by
Mrs. Park.

Under the auspices of the Rock
County Caledonian society, the birth-
day of Robert Burns, Scotland's favor-
ite poet, whom all the world delights
in honoring, was fittingly celebrated
at the entertainment at the Congrega-
tional church last evening.

Following a short introductory
speech by Dr. James Miller, president
of the Caledonian society, Dr. David
Beaton, lecturer on the interesting
features of the pictures which were
thrown upon the screen. They were
scenes of the country of Burns where
he was born and where he spent his
life. The pleasant scenes of the Ayr-
shire country, its rolling fields, sang
hamlets, and its rivers and water-falls
were portrayed with vivid reality.
Pictures of some of the large cities
as Dumfries and Glasgow where Burns
later lived, and some of the monu-
ments which have been erected to
his memory, were also shown.

Before Dr. Beaton's first lecture
Mrs. Zoe Pearl Park, musical director
of the Congregational church, sang
two of Burns' songs, "Flow Gently
Sweet Afton," and "Comin' Through
the Rye." Mrs. Park has a sweet,
clear voice and her interpretation of
these beautiful songs was very de-
lightful.

In speaking on the "Genius of
Burns," Dr. Beaton spoke in part as
follows: "Genius is a word suscep-
tible to a great many different defini-
tions and a great many varieties of
descriptions. When it is applied to a
man like Burns, it means that he is a
representative man standing for his
race. Such a man Homer was for
Greece, Dante for Italy, Goethe for
Germany, and Shakespeare for Eng-
land. They were the great representa-
tive men of their countries whose
names are longest remembered by
their fellow-countrymen. It doesn't
mean that these nations produced no
great statesmen or artists, because
they did, but no race ever produced a
greater hero whose name the mass of the
people have not been doing great things
for years previous.

"The representative man of any
race is a poet and his songs are the
symphony of expression of the
problems which confront the human
race. Until we get above the mere
mechanical we can not find expression
for the beautiful things in life. What
Homer was to Greece and Shakespeare
to England, Burns was to Scot-
land. It would be presumptuous to
say that he was the greatest of them
all because they were entirely differ-
ent as to nature and as to the thoughts
which they expressed.

"This is an age of intellectual
democracy and Burns has the greater
understanding and more universal fol-
lowing because he expressed the
democracy in his songs. Burns is the
epitome of the Scottish race. What-
ever he wrote was composed in a way
that all can understand. Although his
poetry is written in an obscure lan-
guage yet the way in which he wrote
is so simple, original and real that we
cannot fail to grasp his meaning. He
was an original man when all other
men were conventional. He came
from the soil of his native heath and
declared that his soul was his own.
He asserted his independence at a
time when no other man dared say his
soul was his own and he has given the
world a great heritage.

"Burns was conscious of his great
destiny and of his function as a
writer. He felt that providence had
set him apart as a priest is designated
for his holy function. Conscious of
this, what does he speak about? He
wrote of the simple things, of the
heart, and in this manner portrayed
the dignity of human life. He spoke
direct from the heart and therefore
his song appeals to and touches the
hearts of men and women everywhere.
Burns turned his expressions of song
to the familiar and ordinary subjects
and presented the common things in
such a heartfelt way that they never
fail to appeal. He purified the old
Scottish ballads and gathered into his
songs the representative expressions
of the human soul, tender and purify-
ing.

"Mary of Araby" and "My Dearie,
O," were the songs which were ren-
dered by Mrs. Park before Dr. Beaton
gave his second lecture on "Burns
and Interpretations on the Works of
Burns." In this talk Dr. Beaton gave
a number of readings from Burns'
works illustrating the domesticity and
love of home life that was so well
expressed in "The Cotter's Saturday
Night." Other selections portraying
the reality and simplicity of Burns'
poems were read in a very delightful
and entertaining manner.

The evening's program ended with
two more songs by Mrs. Park, "Ye
Banks and Braes," and "It Isna Jean
Thy Bonnie Face," and the final song,
"Auld Lang Syne," in which the audi-
ence joined.

CELEBRATED THEIR SIXTY- FIFTH WEDDING ANNIVERSARY

MR. AND MRS. JAMES MCGOWAN WHO CELEBRATED THEIR SIXTY-
FIFTH WEDDING ANNIVERSARY LAST SATURDAY AT THEIR
HOME IN JOHNSTOWN CENTER.

Last Saturday, January 21st marked
the sixty-fifth wedding anniversary of
Mr. and Mrs. James McGowan of
Johnstown Center. In October of 1854
they came to this country and settled
in New York City, where they lived
for two years. They then removed to
Whitewater where they took up their
residence at Johnstown Center at
which place they have resided since
that time.

Mr. McGowan is in his ninety-third
year and his wife is ninety-two years
old. Considering their age they retain
remarkably good health; their eye-
sight is still keen and their minds are
as alert as in their younger years.
Mr. McGowan was a shoemaker by
trade and pursued that occupation un-
til advanced age compelled him to
lay his work aside.

For over fifty years they have been

active and faithful members of the
United Presbyterian church of Rock
County in which he occupied the office
of elder for nearly all that period.

They have four children, Henry of
Clear Lake, Cal., was home for this oc-
casion; Rev. Wallace McGowan of
Laurel, South Dakota; and Mary
and Anna who reside at home to care
for their parents in their declining
years. There are also two grand-
children, Mollie McGowan who is a
teacher in the high school at Laverne,
Iowa, and James McGowan, who is in
the Dearborn Bank of Chicago.

The celebration last Saturday was a
quiet family affair owing to their ad-
vanced years, but a host of friends
in Rock County wish them continued
happiness and health in the coming
years.

FARMERS PREVAIL IN STATE LEGISLATURE

This Class Outnumber Lawyers Who
Run a Close Second—Other Oc-
cupations Represented.

Madison, Wis., Jan. 26.—According
to the forthcoming official directories
of the two houses of the Wisconsin
legislature, there are forty-two farm-
ers in that body and thirty-three law-
yers, the rest of the occupations and
professions being represented in most
cases by from one to a half-dozen
members. While there are not enough
farmers to constitute a majority,
there is a sufficient number to have
a good deal to say regarding the sort
of legislation that will be put forth at this
session, and their influence, as in
previous sessions, will be recognized
and counted upon. The following list
shows the professions or occupations
of members of each house, in many
cases there being combinations such
as "real estate and insurance," "far-
mer and banker," etc.

In the Senate,
Farmers 12, farmers, 7, merchants
3, and "agriculturists," pharmacist,
lecturer, vessel agent, manufacturer,
landowner, physician, and contractor,
one each.

In the Assembly,
Farmers 35 (several retired), law-
yers 18, merchants, 6, real estate brok-
ers, 7, retired (no other occupation
given), 5, bankers 3, manufacturers,
physicians, teachers, insurance agents,
two each; and public administrator,
clear dealer, bookkeeper, cigar man-
ufacturer, superintendent of mines,
laborer, glass-blower, lumberman, log-
ger, business agents of union, machin-
ist, creamery operator, editor, pub-
lisher, architect, painter, cro-molder,
baker, dentist and delivery clerk, one
each.

The occupations of the social dem-
ocratic members are perhaps of most
interest. Senator Gaylord, formerly
a minister but is now a lecturer;
Senator Zophy a contractor; Assembly-
man Berner is a cigar dealer; Hinner
man a bookkeeper, Breckhausen a cigar
manufacturer, Gilbey a delivery clerk,
Hahn a cigar maker, Kahn a baker,
Kathman a core molder, Klenzendorf an
architect, Matenko a glass blower,
Vint a machinist, Weber, business
agent of a trades union.

ENTERTAINMENT BY BAPTIST SOCIETY

Y. P. S. C. E. Has Charge of Program
and Playlet to Be Given at
Church Tomorrow
Evening.

Friday evening the members of the
Young People's society of the Baptist
church are planning to give a public
entertainment in the parlors of the
church. An elaborate program has
been prepared for the occasion, com-
mencing at eight o'clock and a most
enjoyable evening is anticipated. Lo-
cal talent will take part in the program
which will consist of readings, dis-
cussions, vocal music and piano and
violin selections. The feature of the
entertainment will be a play in panto-
mime, entitled "Wanted, a Wife." A
bachelor dream of single blessedness
and uncertainties to select a life part-
ner. In making his choice, comic situ-
ations arise and the fun is good. The
entertainment is free.

WOULD HAVE LICENSE MONEY GO TO COUNTY

Big Fight Expected Over Bill To Give
County Income From Saloon
License Money.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 26.—To the long
list of anti-saloon and liquor regula-
tion bills which will precipitate the
most sensational of all the fights in
the present legislature, will be added
in a day or two a bill to place the
power to license saloons in county
boards and to take away all the in-
crement from the cities, villages and
towns which now receive it. The bill,
however, may not apply to Milwa-
ukee county, which will give it a better
chance of passage.

The bill will be authored by Sen-
ator Tensdale of Sparta, whose theory
is that as the county must bear the
burden of supporting jails and their
prisoners, and the bulk of the latter
are incarcerated directly or indirectly
because of the liquor business, it
should receive the money paid by
saloonkeepers as license fees. The
matter of fixing the amount of license
is left to the various county
boards and if this should prevail, it is
safe to predict that there will be a
general increase in license fees in a
large number of counties. As most
cities rely to a large extent upon
liquor licenses for supporting munici-
pal governments, the division on this
subject will be along different lines
than other liquor bills.

DOUGHNUTS TAKE THREE STRAIGHT FROM CHESTNUTS

Doughnuts Were Winners By Good

Fish All Sent to Capital.
Havre is the most important fishing
port in France, yet fish costs con-
sumers more there than in the cap-
ital, because every catch that comes
in is sent to Paris at once, leaving a
scarcity of supply in the fishing port
itself. In five years the price of fish
in Havre has increased 50 per cent.

BYRNE WON EASILY FROM YOUNG GETZ

Local Roller Skating Champion De-
feated Rockford Crack Skater
in Race Last Night.

Frank Byrne of Janesville, won easily
from Alfred Getz in the one mile
roller skating race at the West Side
roller rink last evening, coming in
almost a half lap ahead of his oppo-
nent at the finish of the contest. Byrne
led at the start and did not
have to exert himself to maintain
it throughout the sixteen laps around
the track. This was the second of
three races in which the two skaters
have participated and settles unques-
tionably that Byrne is the speedier
skater. Getz won the last race at
Rockford, where Byrne lost by a fall.
Quite a large crowd of skaters were
present at the race despite the un-
pleasant weather.

Proper Use of Food.

Too much food is as bad as too little and occasions a waste of energy and strength in the body as well as a waste of nutritive material. While in the case of some foods as purchased, notably meats, some waste is unavoidable, both by buying those kinds in which there is the least waste, and by utilizing more carefully than is ordinarily done, portions of what is usually classed as refuse.

The First "Cowboys."

"Cowboy" was once a sinister word in American politics. In the Revolutionary war the "cowboys" were a set of Tories in Westchester county, New York, popularly so-called because of the brutal roughness with which they treated their Whig or rebel neighbors. It was, no doubt, in memory of them that the name of "cowboys" was given in 1861 to certain people in Connecticut and other parts of New England who were almost secessionists.

ROCK COUNTY FAIR STOCKHOLDERS MEET

Three Directors Were Re-Elected and Date for This Year's Fair Was Decided Upon.
(Special to the Gazette.)
Janesville, Jan. 25.—The annual meeting of the stock holders of the Rock County Fair Association was held yesterday afternoon in the city hall. Three new directors were to be chosen and Everett Van Patton, W. W. Gilles and George L. Pullen were elected to succeed themselves.

It was agreed that the fair of 1910 was the most successful ever held in the history of the Association, and it was enthusiastically decided to hold a fair here this year. The fair dates were settled and it will be held on Sept. 5, 6, 7 and 8.

Farmer's Institute.
At the close of the fair meeting all present who were interested in a Farmer's Institute were requested to remain and it was unanimously voted at this gathering to hold a local farmer's institute here. The dates have not as yet been decided upon, but it will probably be held during the latter part of February. The following were appointed as a committee on arrangements: W. W. Gilles, Frank Hines, Leo Campbell, C. F. Jorgenson and Everett Van Patton was chosen secretary. Their purpose is to have a program of exceptional merit and one that will be of benefit to the farmers. The high school and seminary have been invited to give the evening entertainment.

Club Lecture.
On Friday evening, Feb. 3, Prof. Thomas Dickenson of the state university will give a lecture in Library Hall. He will speak on the "Modern Drama" and comes in response to an invitation from the Woman's Literary Club. This club will have as their guests, the Afternoon Club, the Tourist club and a few friends.

Everett Van Patton is transacting business in Madison today.

KEEPS OVERSHOE ON

Band Fits Around Ankle and Hook is Fastened to Button.
Any person who has ever had an overshoe come off while creating a muddy street will appreciate the fastener device designed by a Pennsylvania woman to prevent this annoying accident. An elastic band fastens around the ankle and this supports a suspender-like arrangement at the heel of the overshoe.

FASTENED IN A TWINKLING.

Attached to one side of the gusset is another elastic supporter, with a hook which engages a button on a button shoe, or a hook on a lace shoe. It takes only a few seconds to fasten the overshoe on with these devices, and it is worth the trouble. After a rubbin' has come off in the mud, and it usually does this when you are going somewhere where you want to look your best, there is not much use in putting it on again. The attachments are made so that they can be removed from the overshoe when not needed and quickly put on again.

SIMPLE KNIFE CLEANER

Stones Held in Juxtaposition by Resilient Framework.
There are all varieties of knife-cleaners from the simple stone, on which the housewife rubs her cutlery to the elaborate device of multiple wheels used in the big hotels and restaurants. But one of the simplest and most effective of all would seem to be that devised by a California man and shown here. This contrivance consists of a couple of reading stones held in juxtaposition in a resilient frame. The frame consists of two inverted V-shaped wires with springs con-

needing the three corners of each. This has the effect of keeping the stones close together all the time, but allowing enough leeway for the admission of a knife blade or the tines of a fork, which can be cleaned by being rubbed up and down a few times. The springs will insure a sufficiently strong pressure to give good frictional action at all times.

Saltness Unpopular.

That state of mind, which let us call the ignominy of the virtuous, is not entirely confined to boys of nine years. I have seen grown men and women, being accused of saltness, over whose faces passed an expression of mortification. They would accept with more complacency the tribute that they were getting to be devils in their old age.—Max Eastman, in the Atlantic.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one cured case of Catarrh of the Bladder. It is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold in all drug stores. Take Hall's Family Pills for constipation.
